ABOUT

Multidisciplinary designer. Self-taught constant. Restless mind.

I was born on August 23, 1996 in Xàtiva (Valencia). When I was a kid, I spent the day drawing and creating comics. With a more advanced age, I discovered what graphic design meant and I didn't hesitate for a moment to go into it, it was the perfect profession to satisfy my curiosity and my desire to explore.

Since then I've been training and experimenting with design and now I'm ready to tackle any kind of project.

Next, I show you the fields of design in which I feel more comfortable:

SKILLS

- Illustration: 
- Editorial: 
- UI/UX: 
- Web Design:
